(Changes are underlined.)

Please read this Order carefully. Violation of or failure to comply with this Order may constitute a misdemeanor punishable by fine of up to \$1,000, imprisonment, or both, or result in administrative fines. (Health and Safety Code §§ 101029, 120295 et seq.; County Ord. No. 5120.) This Health Officer Order No. 2021-12.1 supersedes and replaces Health Officer Order No. 2021-12 that was effective January 21, 2021. Nothing in this Health Officer Order supersedes State Executive Orders or State Public Health Officer Orders. COVID-19 industry specific guidance provided by the California Department of Public Health (CDPH) is available at: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Guidance.aspx#>

Summary: As allowed in State guidance issued October 9, 2020, this Health Officer Order allows private outdoor gatherings of no more than three households, but otherwise prohibits gatherings unless an exemption applies.

On January 25, 2021, the CDPH ended the State's Regional Stay At Home Order and the Limited Stay At Home Order because the four-week intensive care unit (ICU) capacity projections for the Southern California Region are above 15%. This State action allows all counties to return to the rules and framework of the Blueprint for a Safer Economy and color-coded tiers that indicate which activities and businesses are open based on local case rates and test positivity.

As of January 25, 2021, within the State COVID-19 reopening framework the State has classified the County of Santa Barbara as Tier One ("purple" or "widespread risk"); this is less restrictive for some Businesses and Activities than what was previously allowed under the Regional Stay At Home Order and the Limited Stay At Home Order that was in effect in Santa Barbara County between December 6, 2020 through January 25, 2021.

Consistent with the January 14, 2021 COVID-19 and Reopening In-Person Instruction Framework & Public Health Guidance for K-12 Schools in California, 2020-2021 School Year, this Health Officer Order allows schools and school-based

programs (TK-12 education) to remain open if already providing in-person instruction (Attachment A). Schools and school-based programs (TK-6) that are not currently open may reopen upon meeting the reopening requirements contained in the framework, as outlined at

https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Consolidated_Schools_Guidance.pdf).

Consistent with the State Public Health Officer Order issued August 28, 2020, this Health Officer Order allows the reopening of some, but not all, Businesses within the County of Santa Barbara. To align with the State’s required framework under the “purple” tier, this Health Officer Order reduces capacity allowances for some Businesses. Businesses that may remain open, or open indoor operations with modifications include, but are not limited to: barbershops and hair salons; personal care services such as nail salons, massage therapy, and body art, as listed in Attachment A. All Businesses (as defined) must follow State and local orders.

Consistent with the State Public Health Officer Order issued August 28, 2020, and to align with the State’s required framework under the “purple” tier, this Health Officer Order maintains the closure of indoor operations for some Businesses such as restaurants, wineries, movies, museums, zoos, gyms and fitness centers, places of worship, protests, and offices that are non-essential as listed in Attachment A. Businesses that must stay closed and are not allowed to reopen physical locations at this time are listed in the Attachment B, as well as Activities (as defined) that are not allowed at this time are listed in the Attachment B.

Such walls must be non-adjacent or non-continuous. Of note, doors, windows and other portals do not make a wall "non-continuous." Adjacent walls are walls that touch each other and form a corner.
 - b. **An impermeable wall** is defined as any material type that can reasonably restrict aerosols from passing through. A fabric curtain and a tarp or plastic barrier are considered an impermeable wall because the material would prevent aerosols from passing through.
 - c. **A permeable wall** is defined as one that is made of a material or design which does not significantly impede natural air flow. For example, barriers such as a lattice fence with widely separated slats or a coarse mesh screen will allow more air to flow freely and are not considered an impermeable wall. For a barrier to be considered permeable, air must be able to flow across the length and width of the barrier.
 - d. **Perimeter fencing or walls:** Any security barriers or other solid structures used to create a perimeter for a business can be no higher than three feet. Mesh fencing or other permeable materials that maintain cross-ventilation and do not significantly impede natural airflow may be used as a perimeter with no height restriction.

IN ADDITION TO THE ABOVE ORDER THE HEALTH OFFICER STRONGLY RECOMMENDS that retailers designate specific hours of operation for their stores to accommodate populations at high risk of developing severe COVID-19 disease, such as persons over the age of 65 years.

This Order is issued as a result of the worldwide pandemic of COVID-19 which has infected at least 100,285,420 individuals worldwide, in 218 countries and territories, including 27,149 cases, and 267 deaths in the County, and is implicated in over 2,149,460 worldwide deaths.

This Order is issued based on evidence of continued community-based transmission of COVID-19 both within the County and worldwide, scientific evidence regarding the most effective approach to slow transmission of communicable diseases generally and COVID-19 specifically, as well as best practices as currently known and available to protect the public from the risk of spread of or exposure to COVID-19.

This Order is issued because of the propensity of the virus to spread person to person and also because the virus physically is causing property loss or damage due to its proclivity to attach to surfaces for prolonged periods of time.

This Order is intended to reduce the likelihood of exposure to COVID-19, thereby slowing the spread of COVID-19 in communities worldwide. As the presence of individuals increases, the difficulty and magnitude of tracing individuals who may have been exposed to a case rises exponentially.

This Order is issued in accordance with, and incorporates by reference: the March 4, 2020 Proclamation of a State Emergency issued by Governor Gavin Newsom; the March 12, 2020 Declaration of Local Health Emergency and Proclamation of Emergency based on an imminent and proximate threat to public health from the introduction of novel COVID-19 in the County; the March 17, 2020 Resolution of the Board of Supervisors ratifying the County Declaration of Local Health Emergency and Proclamation of Emergency regarding COVID-19; the guidance issued on March 11, 2020 by the California Department of Public Health regarding large gatherings of 250 people or more; Governor Gavin Newsom's Executive Order N-25-20 of March 12, 2020 preparing the State to commandeer hotels and other places of temporary residence, medical facilities, and other facilities that are suitable as places of temporary residence or medical facilities as necessary for quarantining, isolating or treating individuals who test positive for COVID-19 or who have had a high-risk exposure and are thought to be in the incubation period; the March 13, 2020 Presidential Declaration of a National Emergency due to the national impacts of COVID-19; the guidance issued on March 15, 2020 by the Centers for Disease Control and Prevention, the California Department of Public Health, and other public health officials through the United States and around the world recommending the cancellation of gatherings involving more than fifty (50) or more persons in a single space at the same time; the March 16, 2020 order of the State Public Health Officer prohibiting all gatherings with expected presence above ten (10) individuals; Governor Newsom's Executive Order N-33-20 of March 19, 2020 ordering all persons to stay at home to protect the health and well-being of all Californians and to establish consistency across the state in order to slow the spread of COVID-19; the March 22, 2020, Presidential Declaration of a Major Disaster in California beginning on January 20, 2020 under Federal Emergency Management Agency (FEMA) Incident DR-4482-CA; Governor Newsom's Executive Order N-60-20 of May 4, 2020 to allow reopening of lower-risk businesses and spaces ("Stage Two"), and then to allow reopening of higher-risk businesses and spaces ("Stage Three"), and directing the Public Health Officer to establish criteria and procedures to determine whether and how particular local jurisdictions may implement public health measures that depart from the statewide directives of the State Public Health Officer; the May 7, 2020, State Public Health Officer Order; the July 13, 2020 State Public Health Officer Order; the August 28, 2020 State Public Health Officer Order called California's Plan for Reducing COVID-19 and Adjusting Permitted Sector Activities to Keep Californians Healthy and Safe; the November 13, 2020 CDPH Guidance for the Prevention of COVID-19 Transmission for Gatherings; and the January 25, 2021 lifting of the Regional and Limited Stay at Home Orders.

This Order is made in accordance with all applicable State and Federal laws, including but not limited to: Health and Safety Code sections 101040 and 120175; 101030 et seq., and 120100 et seq.; and Title 17 of the California Code of Regulations section 2501.

If any provision of this Order or the application thereof to any person or circumstance is held to be invalid by a court of competent jurisdiction, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.

The violation of any provision of this Order constitutes a threat to public health. Pursuant to Government Code sections 26602 and 41601 and Health and Safety Code sections 101029 and 120295, the Health Officer requests that the Sheriff and all chiefs of police in the County ensure compliance with and enforce this Order. Per Health and Safety Code section 101029, “the sheriff of each county, or city and county, may enforce within the county, or the city and county, all orders of the local health officer issued for the purpose of preventing the spread of any contagious, infectious, or communicable disease. Every peace officer of every political subdivision of the county, or city and county, may enforce within the area subject to his or her jurisdiction all orders of the local health officer issued for the purpose of preventing the spread of any contagious, infectious, or communicable disease. This section is not a limitation on the authority of peace officers or public officers to enforce orders of the local health officer. When deciding whether to request this assistance in enforcement of its orders, the local health officer may consider whether it would be necessary to advise the enforcement agency of any measures that should be taken to prevent infection of the enforcement officers.”

Copies of this Order shall promptly be: (1) made available at the County Public Health Department; (2) posted on the County Public Health Department’s website (publichealthsb.org); and (3) provided to any member of the public requesting a copy of this Order.
