The California COVID-19 Vaccination Program, in collaboration with the California Medical Association, is now enrolling adolescent care providers, including those participating in California Vaccines for Children (VFC) Program, to help immunize California's teens.

- Pediatric providers can receive assistance to enroll in MyCAVax which is required to receive allocations of vaccine.
- Pediatric providers will not be required to enter into an agreement with the Third-Party Administrator (TPA) Blue Shield.
- Providers are not required to use the MyTurn system if they have an electronic medical record that provides information to CAIR.

### **Provider Support for Enrollment in the COVID-19 Vaccination Program**

An informational webinar was conducted by CDPH on May 11<sup>th</sup> and included the following topics. It can be viewed via the link below.
