

Quarantine Decision Tree for Unvaccinated Student School Indoor Exposure

(staff exposure would follow quarantine guidelines out lined by Cal/OSHA)

Individual Testing Positive for COVID-19 isolates at home for 10 days from symptom start date (vaccinated or unvaccinated)

All asymptomatic contacts Must:

- Continue daily self-monitoring for symptoms through Day 14 from last known exposure AND
- Continue to wear a mask around others, hand washing, and avoiding crowds through Day 14 from last known exposure
- If symptoms develop during the 14-Day Period, the contact must isolate immediately, get tested and contact Healthcare provider
